NOW UNDER CONSTRUCTION — Abiding Saviour Lutheran Church will look like this when completed in a few months. Work is underway at the 12th and Jackson location in northeast Cameron. The building is approximately 3,200 square feet and will have paved parking space on the west side of the building. Groundbreaking was in early March and work began March 10. Contractor is Coffield Construction Co., of Rockdale. Church pastor is Rev. Don Marquart.

School Polls Await Votes

Contested races in four county districts are expected to produce strong voter turnouts in Saturday's school trustee elections.

Voting in Cameron will be from 8 a.m. until 7 p.m. at Yoe High Gym, with Felix Matula as election judge.

Cameron, Gause, Rockdale, and Thorndale voters will decide contested races while candidates in Milano and Buckholts are unopposed.

Two board seats in Cameron have three candidates: incumbent Hilliard Thomas, and first - time candidates Fredwill Hornung and W. Wirt Skinner.

In Rockdale, Milton Curtis, incumbents W. P. (Red) Hogan, Glenn Hodges and Dr. Philip Young have filed for the three places on that school board.

Thorndale voters will choose two trustees from a field of four candidates. Mrs. Anita Belle Kasner, seeking her second consecutive term, Norman Leschber, Antonio Espinosa, and J. L. Berry are the candidates.

Candidates in the Gause trustee election for three places are Carl Walker, H. M. (Bud) Walker, S. G. Wilson, Truman E. Ditto and Milton Carl Wise. Space for a write-in vote will be on the Gause ballot for the unexpired term of O. F. Offield. Vernon Shaw was appointed to that post and his name is not on the ballot because of a misunderstanding about the new election law that requires appointees to run for unexpired terms.

Uncontested school board elections are Buckholts with two candidates, A. W. Zajicek Jr. and Vernon Dungan; Milano, where Ray Whited and J. C. Hayman are candidates for the two seats there; and for county school trustee: H. L. McMillan for Precinct 4 and Bennie D. Williams for Precinct 3.

Tax Payment To City Brings Total $35,150 For '68

The City of Cameron received a check for $12,651.42 Friday, final payment from the state for 1968 city sales tax which went into effect April 1, 1968.

The payment was for sales tax collected during October, November, and December, and was the largest of three such checks received by the City for 1968 sales tax.

Total payment for the year was $35,150.47. This was for three quarters. If 1969 payments continue at the same rate as last year's, the City's anticipated revenue of $44,000 annually may well be exceeded.

First payment from the state was $10,955.24, for April, May and June. The second quarter payment totaled $11,543.81.

The added revenue goes into the City's general fund and is included in the budget. Adoption of the three percent city sales tax averted a possible hike in property taxes to cover increased city government costs and salary increases for city employees.

Under the sales tax law, local merchants collect a three percent tax on all sales, which is paid to the state. One percent (or a penny for each dollar spent) is returned to the city.

McLERRAN FLIES TO HAVANA ON HIJACKED PLANE

A Cameron man joined the growing ranks of American airline passengers who have enjoyed an unscheduled trip to Cuba when his flight was hijacked last Tuesday.

Archie R. McLerran, son of Mrs. A. R. McLerran of Cameron, was aboard Delta Airlines Flight 821, en route from Dallas to San Diego, Calif., when a lone gunman in the crew's compartment forced the pilot to fly to Havana.

McLerran said the 107 passengers did not see the gunman and the first thing they knew about the change in flight plans was hearing a calm voice saying "Ladies and gentlemen," this is your captain. "There is a man here in the cockpit who wants to go to Cuba, and since he has a gun, we will accomodate him."

All the passengers were very calm, McLerran said, and one woman added that she was being hijacked for the second time.

At Havana the passengers waited in the airport building for about eight hours before they were allowed to reboard their plane for Dallas. They were served sandwiches, cigars and the official Communist Cuban newspaper, printed in English.

McLerran is the National Science Foundation's special assistant for coring operations with Scripps Institution of Oceanography's Deep Sea Drilling Project. He had been at sea for 30 days before docking at Panama and beginning a series of flights to San Diego. He and his wife, the former Inez Smith of Cameron, and daughter Marilyn live in La Jolla, Calif.

The McLerrans were visiting in Cameron early this week and have returned to California.

Royal Seating Corp.

Work Lauded, Explained

Roy Jennings, president of Royal Seating Corp., new industry in Cameron, Wednesday lauded the work of key men in the new chair manufacturing firm, CIF President N. L. Caperton and explained the complexities of developing new products and founding a new industry.

Speaking before Cameron Rotarians, Jennings cited five basic elements in structuring an industry, 10 steps which Royal Seating Corp. has followed to begin production and five considerations in the manufacture of their seating products.

He congratulated Caperton, president of Cameron Industrial Foundation, Inc., whose work contributed to Royal Seating's selection of Cameron for the plant site.

He cited Jack Holland, company sales manager, and Dave Hart, plant superintendent, whose experience, combined with Jennings', totals 50 years in the seating industry. All three men, he noted, are under 40.

He said the company has reached the stage of hiring production personnel, ninth of 10 points in developing the new Cameron plant.

He noted Royal Seating Corp. was entering the 10th stage which began with:

One, designing the product, and progressing through: two, determining the right to manufacture, purchasing tools and equipment, establishing plant location, building adequate building, hiring people, proving the tooling or equipment, purchasing raw material, hiring production personnel and having to produce.

Jennings demonstrated samples of the functional plastic seating now under production here. He said laboratory testing has been conducted to assure Royal Seating's chairs have proper posture, comfort, minimum maintenance, simplicity and functional use for schools, institutions and commercial businesses.

"Good equipment pays" he said, in describing new equipment in use in the plant, some of which similar manufacturers may not have for ten years. He described an electro-static process for painting chair legs which is up to the minute.

He said patents are applied for processes used in the plastic seating. Nationally, some 40 manufacturers produce institutional seating.

And he noted Royal Seating Corp. chairs have received good reviews both nationally and locally.

He said Royal Seating Corp. went through five basic stages in establishing: needs for finances, people, sales distribution, manufacturing and machinery and right to manufacture.

He said weather delay has left only completion of a rail siding for Royal Seating Corp., which, he emphasized, has "made great strides."

He said a complete story on the new industry, stockholders and management is forthcoming. The new corporation is chaired by Roy Strassberger, Sr., and has seven directors.

The plant is located in the new Cameron Industrial Park, northwest of Cameron.

A sales organization has been established throughout Texas and about 10 states in the Midwest and Southwest.

Development Fund Nears Goal For $1 Million Hospital

Gifts and pledges for St. Edward Hospital Development Fund now total $206,040.07. Goal for the fund drive is $250,000. Local gifts will be matched by Sisters of Charity who operate the Cameron hospital.

A federal grant of $500,000 has been approved contingent on local support.

The new $1 million, 50 bed, hospital will be built on property adjacent to the present 55-year old hospital. Plans call for a completion date of December 30, 1970.

City Vote Light; 113 Ballots Cast For 3 Councilmen

Voting at Cameron City Hall was light Tuesday, with 113 ballots cast in the election of three unopposed city councilmen. That total was in contrast to the 1968 election when 1207 voters turned out to elect a new Mayor.

Incumbent Councilman Starrett Hickman was re-elected to Place 3 with 106 votes. This will be the fourth term as Councilman for the Cameron grocer.

Lawrence Zolz, incumbent, was re-elected by 113 votes to Place 4 for his third term on the Council.

Place 5 candidate Robert Clark will begin his first term as an elected councilman. Total votes for Clark were 106. He was appointed last November to serve the unexpired term of Councilman John Hays who died in October.

No absentee ballots were cast in the election, City Secretary Buddy Fuller said, and only a few write-ins for various individuals were recorded.

The votes were canvassed at a regular City Council meeting which began at 7 p.m. Routine department head reports made up the balance of the Council's election night agenda.

City Schools Close For Easter Holiday

Cameron Public Schools and St. Anthony School will be closed Friday, April 4 and Monday, April 7, for Easter holidays.

School will resume with regular class and bus schedules on Tuesday, April 8.

11 Indictments From Grand Jury

Eleven felony indictments were returned by a Milam County Grand Jury last week and one case was no billed. Grand jurors examined nine witnesses, according to County Attorney John B. Henderson, Jr.

Indictments were returned against:

Henry Lee Judie of Fort Worth for a January 12, 1969, charge of failure to stop and render assistance.

Doyle Buchanan of Thorndale for December 2, 1968 and January 13, 1969 charges of felony theft and burglary.

Tony Cooper of Hughes Springs, Texas, for a Janurary 22, 1969, charge of felony theft.

Vance Rowe of Austin for a December 2, 1968, charge of burglary.

Glen Wauptika, (no address) for a December 2, 1968, charge of burglary.

Fain Davenport of Copperas Cove, for jail escape on March 2, 1969.

Alonzo Ellison, Jr. of Cameron, on two charges of driving while intoxicated, January 4, 1969 and March 16, 1969.

Z. T. Johnson of Gause, on a charge of driving while intoxicated (subsequent offense) on March 11, 1969.

Ray Lane of Cameron, charged with a January 29, 1968, burglary.

Grand Jurors were: William J. Crenan, foreman, William F. Arthur, secretary, M. C. Wise, Walter Holliman, L. E. Rose, Hal D. Franklin, Bentley Hause, Joe F. Zajicek, C. W. Talbot, Alvin H. Fail, Jr., Charles W. Kunz, Clifford W. Angell.

PTA DATE CHANGED

Because of the Easter holidays, the Cameron Parent Teachers Association will meet Thursday, April 10, at 7:30 p.m. in place of their regularly scheduled meeting.

With F.M.L.

Comments on Bill Leigh's talk before a group of business owners, managers and sales personnel last week continue to stir endorsement.

His comments on modern merchandising and sales presentation fit the emerging modern Cameron which is to include a shopping center atmosphere for the whole town.

When a man of Leigh's experience and ability says the Cameron business community can do everything the most modern business operation anywhere can do, he encourages the basic abilities of the local business community to review for the future.

As Cameron and Milam County have proved in so many other ways, Cameron is responding to the needs of people in yet another area of modern life, which will improve the community and, importantly, the profit margin of those who better serve the public.

110-110-110

We enjoyed the talk by Roy Jennings, president of Cameron's all new Royal Seating Corp., the latest operation to join the growing industrial community here.

The success of such firms as Royal Seating Corp. finds a sequel in Cameron's community development, modernizing agriculture, ranching and agri-businesses. Add to these developing public services such as improved police department, street programs, schools, hospitals and all the other facilities growing modern here.

110-110-110

If I were asked to describe the reasons for Royal Seating's successful organization and start, I would say Jennings' obvious organizational ability and knowledge of product would be the start. Cameron Industrial Foundation's co-operation led by CIF president Narvie Caperton would be a powerful contributing factor.

Producers like Jennings and his associates who are confident of their product and share confidence in Cameron are an important element in this new Cameron, for which dozens and hundreds have spent thousands of hours and efforts.

Holidays Announced For Rogers Schools

The Rogers Public Schools will dismiss Thursday afternoon for the traditional Easter holidays, and classes will be resumed on Tuesday, April 8, according to an announcement by Supt. B. F. Harbour.

These are the last holidays scheduled for this year.

Baccalaureate services are scheduled for Sunday night, May 18, and high school commencement will be held Wednesday night, May 21.

Services Planned For Holy Week

Community Good Friday and Easter sunrise services have been set by the Greater Cameron Area Ministerial Association. Some Cameron churches will also observe Maundy Thursday with evening communion services.

Maundy Thursday services have been announced for First Methodist Church, 7 p.m., First Presbyterian and Abiding Savour Lutheran joint service, 7:30 p.m., St. Monica Catholic Church, 7:30 p.m. The Catholic service will be a high mass with first communion for 25 children.

Community Good Friday services will be at the First Baptist Church from 1 to 2 p.m. Friday. Rev. Alvis Coleman, Methodist minister, will deliver the sermon.

Holy Saturday service, the Easter Vigil, at St. Monica Church will be in three parts: The Light Service, The Baptismal Service, and the Eucharistic service. The St. Anthony School Choir, conducted by Sister Michael Marie, will sing for the 7:30 p.m. service.

A community Easter Sunrise service from 6:30 to 7 a.m. has been scheduled, weather permitting, at Yoe High Stadium.

The Rev. Arnold W. Hearn will celebrate Holy Communion at a special Easter service at All Saints' Episcopal Church, 9 a.m. Sunday.

Other churches in the area will have regular Sunday services.

On Trustee Positions . . .

Candidates Offer Views

The three candidates for two positions on the Cameron School Board were invited by The Herald to offer short statements on their candidacy for trustee.

Hilliard Thomas, president of Citizens National Bank, has been a school board member since 1967, when he was appointed to fill the unexpired term of Lane Horstman. He is a native of Cameron, a graduate of the University of Texas, and served in the Army Finance Corps during World War II. He is married and has one daughter.

W. Wirt Skinner

Hilliard Thomas

In his statement, Thomas said, "I feel that the welfare of the children being educated in our school is our first consideration. Sound fiscal policies are essential for the success of any program and must be evaluated within the ability of the patron of the school district and the property owner to pay for each program.

"Good schools are not accidental and as a parent and member of the Community I am interested in seeing our Community grow and prosper. Without good schools carefully planned, continuously evaluated and constantly improved our Community cannot grow and prosper. Public school improvement depends largely upon local initiative and local effort and must be a continuing program over a period of years."

Fredwill Hornung, whose name appears second on the ballot, had no statement for The Herald. He is a partner in the Hornung Hatchery and is a first-time candidate for the school board.

Two Escapees Still Free, Sheriff Says

Two teenage boys enroute to Gatesville escaped from Houston Sheriff's Dept. officers in Cameron late Friday and are still at large, according to Milam County Sheriff Carl Black.

The boys, ages 16 and 17, are suspected of taking a 1969 Pontiac that belonged to Mrs. Ruth Booney and was parked at Woodum Auto Sales for servicing.

Sheriff Black said the boys fled from the Houston officers while they were stopped at The Texan.

TEXANS ON FARM RANCH IS TOPIC AT HISTORY CLUB

The Cameron History Club met in the home of Mrs. Roy Law, March 25 with 15 members and two guests: Mesdames Ray Jenson and Reeves Brown, present.

The meeting was called to order by Mrs. Mary Lawrence, acting president.

The Club stood for a brief moment in silent tribute to their late president, Miss Louise Green.

Miss Maurine House, program leader for the afternoon gave an interesting paper on "Texans on Farm and Ranch."

Following the business meeting and program, the hostess invited the guests into the dinning room where Mesdames C. R. Dodson and John Howard assisted in serving refreshments.

The house was beautifully decorated with spring flowers.

Easter Egg Hunt For CCC Children

Cameron Country Club will have an Easter Egg Hunt for member's children at 4:30 p.m. Saturday, April 5.

Mrs. Lee Marek, Jr. is in charge of the party for children 10 years old and under.

MRS. SMITH IS MARCH HOSTESS FOR DELPHIANS

The Cameron Delphian Club met March 18 with Mrs. Niley Smith as hostess. Signs of the coming Easter season were noted at various places in the reception rooms.

Mrs. A. W. McCullin, president, presided over the business meeting. Mrs. J. A. Bowling, chairman of the nominating committee, presented the following names for re-election by the club to serve as officers for 1969-1970: Mrs. A. W. McCullin, president; Mrs. E. J. Burkes, vice president; Miss Mary Yoe, recording secretary; Mrs. Frank Reid, corresponding secretary; Miss Maurine House, treasurer; Mrs. R. G. Grabein, federation counselor.

Mrs. Howard Baskin, chairman for the revision of Constitution and By-Laws asked Mrs. E. J. Burkes to read the report of this committee. The report was accepted. Conservation chairman, Mrs. Frank Reid led the conservation pledge.

"Keys to Clean Air and Water" was the program theme introduced by panel chairman Miss Maurine House. Mrs. Carroll Green cited Los Angeles and Philadelphia as two cities actively engaged in combating air pollution. Mrs. R. G. Grabein discussed the area of water pollution and surmised that God had created many things for man's use and pleasure that man by his own greed, carelessness and apathy was destroying these gifts.

The fifteen members and one guest, Mrs. Alvis Coleman, were invited into the dinning room for refreshments. Here, again the Easter theme was evident in the centerpiece. Mrs. Coleman served fruit punch and Mrs. McCullin served hot spiced tea. Sandwiches, nuts and petit fours were enjoyed.

The club adjourned to meet at the home of Mrs. Frank Reid on April 1 at which time they will make a tour of the Cameron water plant.

Rogers Will Elect 2 School Trustees

The annual trustee election will be held in the Rogers Independent School District on Saturday, April 5, from 8 a.m. until 7 p.m. Mrs. Frank Ponclik will be election judge, assisted by Mrs. Jordan Aycock and Mrs. J. L. Chervenka as clerks.

The only candidates for the two places to be filled on the board of trustees are the present incumbents who are running to succeed themselves: Clayton D. Clowers and Edwin J. Psencik.

The election will be held in the high school library.

J. V. (Vernon) Eanes of 404 North Crockett in Cameron retired Monday after 17 yrs. as a security guard at Alcoa's Rockdale Works. Eanes joined Alcoa in 1952 after 25 years with a wholesale grocery firm as a salesman. The Chriesman, Texas, native graduated from high school in Cameron and is a member of the Church of Christ.

'HORSE TRADIN' REVIEWED FOR WOMENS CLUB

Mrs. Virginia Schuhsler was hostess to the Pleasure and Profit Club at her home, 703 N. Nash Ave., on Thursday afternoon, Mar. 27.

Mrs. Arthur Bowling presented a program on the early horse trading days of Texas. She selected three anecdotes from Ben K. Green's book, "Horse Tradin'", reviewing these three in detail: Horse From Roundrock, The Grey Mules and The School Marm and Old Nothing. Each story brought out some of the tricks used in horse trading, and the experiences of the traders of early days in Texas History, giving some idea of our heritage of trading.

Mrs. Schuhsler served the 13 members present a dessert plate of banana cream pie and coffee.

Herman Lange Rites In Gause

Herman A. Lange Jr., 66 died March 25. He was born May 1, 1902 in Milam County and was living in Gause at the time of his death. He was a member of the Church of Christ.

Funeral services were held Thursday at 2 p.m. in the Gause Methodist Church, Rev. Jim Talbert, pastor of the Hearne Church of Christ officiating. Burial was in the Gause Cemetery.

Mr. Lange is survived by his wife, Mrs. Nettie Lange off Gause; two daughters, Mrs. LaNelle Spence of Forest Grove and Mrs. Marie Rudder of Lubbock; three brothers, Louis and Garland Lange of Gause and Howard Lange of Bryan; one sister, Mrs. Lucille Erwin of Odessa; eight grandchildren and one great grandchild.

Pallbearers were Billy Cunningham, Ruby Smith, Blake Bailey, Sun Varner, W. L. Ditto, and Raymond Slay.

Battetown Baptists Set April Revival

The Battetown Baptist Church will have a revival meeting April 13 through 20 as a part of the Crusade of the Americas. Rev. Robert M. Buchanan of Austin will be preaching at the services each night during the week at 7:30 p.m.

The Crusade of the Americas was born out of the 1965 Brazilian Crusade in which over 100,000 found Christ as Saviour. A Brazilian pastor, Reuben Lopez, challenged Baptists from South, Central, and North America to join a Crusade during 1969 that would cover the entire western hemisphere. Baptist groups from all over the hemisphere have joined the Crusade with the theme, "Christ, The Only Hope."

Most of the 22 Southern Baptist Churches in Milam County will be participating in the Crusade during the month of April.

They have 29 grandchildren and three great grandchildren. Ten of their granddaughters will serve and register guests at the reception.

Mr. and Mrs. Malone were married in 1919 in the Liberty community. They have lived in Milam County all of their lives.

The couple invites all friends and relatives to attend the reception.

DKG Paogram Officer Is Luncheon Speaker

Beta Nu Chapter of Delta Kappa Gamma heard guest speaker Mrs. Loretta Halleck of Austin, International Coordinator of Program Services, at its luncheon meeting at the Texan Restaurant in Cameron, March 29, at 12 noon.

Mrs. Halleck spoke on Delta Kappa Gamma's State and Chapter four-year focus and theme "The Critical Analysis of Values--A Basis for Action." This year's program theme deals with what the members of Delta Kappa Gamma can do to improve the quality of daily living. She defined values as matters of personal choice visible in actions, reactions, and interactions, relative and flexible and based on one's beliefs, principles, and standards. They are always altered by attitudes, opinions, and prejudices. Since values are matters of personal choice, one must realize that others also have choices. She insisted that members of Delta Kappa Gamma have a responsibility to improve daily living, and they dare not use the cliches 'There's nothing I can do," "They told me not to do it," and "What's the use!" to escape the responsibility.

Mrs. Jesse E. Holloway, vice-president of Beta Nu, introduced Mrs. Halleck and also Miss Helen Henshaw, Delta Kappa Gamma International Editor, who accompanied Mrs. Halleck from Austin.

Mrs. Arnett Zelisko introduced Mrs. Tommy Corley and Mrs. Hilliard Thomas of Cameron, who provided music for the occasion. Mrs. Corley chose three songs appropriate for a meeting of teachers -- "Scarlet Ribbons," "Turn Around," and "Lilac Tree." She was accompanied at the piano by Mrs. Thomas.

Following the program, Mrs. H. D. Maxwell, president, presided over the business meeting.

Miss Roberta Falconer told of the chapter's project, a Book of Memories in which are recorded Beta Nu's necrology. Miss Falconer stated that Beta Nu, founded in 1935, will be 35 years old next year.

Mrs. Maxwell called attention to recent honors for two members. Mrs. Frederick E. Bayless, counselor of Rockdale Schools, is president-elect of Region VI TSTA. Miss Bertha Pendergrass, Spanish and English teacher, was judged "Teacher of the Year" by Rosebud High School. The contest was sponsored by the Future Teachers organization of the school, with Mrs. Leo Kahler, Jr., another Beta Nu member, as advisor. Mrs. Maxwell praised the Beta Nu committee for getting all reports in before April 1, the deadline.

The next meeting, honoring the chapter's founding, will be a tea, Saturday, May 3, at 2:30 p.m., in the home of Mrs. F. A. Doss, near Rockdale. Rockdale members will be hostesses. Mrs. Henry Williams and Mrs. Raymond Kosel will present the "Founders Day Memorial" program. Music will be furnished by Mrs. Arnett Zelisko. A report from the committee on Personal Growth and Services will be given during the business session.

PERSONALS—

Vehicle Inspection Deadline Near For Carowners

AUSTIN

Colorel Wilson E. Speir, director of the Texas Department of Public Safety, today reminded Texas motorists that only two weeks remain until the state motor vehicle inspection deadline.

State law requires that cars, trucks, and certain trailers be inspected at an approved inspection station, and that a current inspection sticker be displayed in the lower right-hand corner of the windshield by midnight, April 15. The fee for the inspection is $1.75 plus charges made by the inspection station for mechanical adjustments, if any.

Speir urged motorists to get the inspection soon to avoid long lines which will develop at inspection stations as the April 15 deadline approaches.

Director Explains Bond Program For Park Lands

AUSTIN

"There seems to be a general misunderstanding about the $75 million bond program for acquisition and development of park lands," says J. R. Singleton, executive director of the Texas Parks and Wildlife Department.

Singleton says the misunderstanding centers around the entrance fees now charged at the State parks.

"The entrance fees are an integral part of the bond program," says Singleton. "We sell the bonds with the understanding that they will be liquidated with the money we receive from the entrance fees. The bond money is used for the acquisition and development of more State parks."

According to Singleton, the bond program is backed with assurances to those who buy the bonds that they can be paid off from the general revenue fund if the entrance fee system fails. "But if we do this, it will be at the expense of other pressing needs of the State," he said.

"We studied the alternatives to the bond program," Singleton said, "but in the end it was logical to let the user pay the larger share for State parks."

"It was pretty well agreed that Texas needed more facilities for outdoor recreation. The problem was how to pay for these facilities. Since, before the bond program, Texas bought only three of its 61 State parks, the rest being donated or leased, we knew that our plan would have to be a radical change from the old way."

Singleton said that for the heavy park user, there is the $12 annual permit for each car. "Twelve dollars a year is all any family need pay each year," he said. "This is very reasonable when you consider that Texans can enjoy recreational facilities and invest in the future at the same time."

Glaucoma Tests Can Save Vision

Milam County residents 35 years of age and over are reminded to make plans to attend the free Glaucoma Screening Program on Sunday afternoon, April 13 from 2:30 p.m. until 5 p.m. at the Rockdale Elementary School Cafetorium.

The free tests for glaucoma are being sponsored by the Texas Society for the Prevention of Blindness and the Rockdale Lions Club. The program has been approved by the Milam County Medical Society and the local Health Department.

Glaucoma is the leading cause of blindness in adults. It usually is a gradual, painless loss of side vision, of which the victim is totally unaware. If glaucoma is detected and treated in time, progress of the disease can be checked.

Symptoms which may suggest the presence of glaucoma are: frequent changes of glasses, none of which are satisfactory loss of side vision; blurred or foggy vision; rainbow-colored rings around lights; inability to adjust eyes to darkened rooms. Having these symptoms does not necessarily mean a person has glaucoma; on the other hand, these symptoms might not even be present and a person could still have early glaucoma.

The April 13 screening is open to the public, 35 years of age and over.

Tips From Tippit

You are the Captain!

When you drive your car, you frequently have other passengers-family, friends and associates. Sometimes they become reckless passengers.

In the driver's seat, you are the captain of the ship. It's up to you to lay down the law to your mother-in-law who wants to talk your ears off, to your buddies who want to pass the bottle around, to your kids who want to jump and shout, to your wife who wants you to look at the road map, to your business friends who want to argue.

Whether you like it or not you have to be the captain of your car. If your passengers cause you to have an accident, just make a guess, who will be held responsible? You, the Captain.

Research Probing MarihuanaPuzzle

By S. E. Yolles, M.D., Director, National Inst. of Mental Health

In this day of increasing interest in drugs and drug abuse, one of the most common—marihuana—remains a mystery.

Medical science does not know nearly enough about marihuana.

We don't know how marihuana changes ability to think, concentrate, and perceive things. We don't know how personality factors, expectations, and past experiences influence a person's reactions to the drug.

Natural marihuana varies tremendously in strength and composition. Uniformly in scientific studies, so that results can be compared and checked, has been almost impossible.

Not long ago the active ingredient of marihuana, tetrahydrocannabinol, was produced for the first time in history in pure form.

This exciting discovery, made by NIMH-supported research in Israel, produced the chemical compound synthetically. This means that researchers can now precisely measure the drug's action.

For the first time in history, they can accurately study the short-term and long-term effects of marihuana on the human body.

Research projects are being conducted in universities and other by with NIMH support.

ty with NIMH support.

The NIMH is also developing a publi education program to disseminate research findings to provide current, factual information about mahuana—and other drugs NIMH that is h wh we do know and their misuse and abuse.

A new information leaflet by the about marihuana is just off the press and is available free to anyone who requests it.

Its title is "Marihuana—Some Questions and Answers."

Perrin Will Attend Nuclear Symposium

Bill Perrin, Yoe High School honor student, and Jack Kuzicka, teacher at Yoe High, have been selected to attend a nuclear symposium at the University of Texas at Austin June 3-6.

The symposium will be sponsored by the University of Texas and the Texas Atomic Energy Research Foundation. Expenses for both persons will be paid by Texas Power and Licht Company, a member of TAERF.

Supt. D. R. Dodson announced the names of the two attendees. They will join some 900 other honor students and teachers from over the State of Texas.

Rosebud Tackle In All-Star Game

Rex Olson, 6-4 230-pound offensive-defensive tackle for the Black Panthers of Rosebud during the 1968 season, will play in the North-South All-Star game in August.

Olson is the son of Mr. and Mrs. Thomas Olson of Cedar Springs. His mother is on the staff of Newton Memorial Hospital in Cameron.

Named to the 22-A all-district team, the Super Cen-Tex team, and all-state second team for Class A, Olson has signed a letter to play with Sam Houston State College. He played strong side tackle on offense and was assigned two blockers on defense.

ASCS NEWS—

By Alva E. Sanders

Farmers are reminded that the "no-grazing" period for land diverted from production under the 1969 feed grain and wheat program will start May 1. It will continue for the following five months until October 1.

Producers who are diverting land under the programs have agreed not to graze the land being diverted during a specific five-month period of the growing season and not to harvest a crop from the land at any time during the year.

Farmers who are taking part in the Conservation Reserve and Cropland Adjustment programs have agreed not to graze or harvest crops from land diverted under these programs during the life of the agreements. These provisions are important to producers because any violation of them may result in reduction or total loss of payments otherwise earned under the programs.

EMINENT!

If you are referring to something about to happen; threatening danger, etc.

If you mean to say: High in station; an EMINENT scholar is correct. Noteworthy; EMINENT valor is correct. High, lofty; an EMINENT tower is correct.

IMMINENT is defined thus: About to happen; impending; threatening; said especially of danger or catastrophe.

KNOW your English! A limited vocabulary means limited thinking, and limited thinking means limited opportunities!

Sen. Watson Names McGregor Banker To 13th District Post

Sen. Murray Watson Jr. announced last week the appointment of Otis Gardner of McGregor as District Coordinator.

Watson said Gardner would travel throughout the 13th Senatorial District—Bell, Falls, Limestone, McLennan, and Milam counties—to coordinate activities of mutual benefit to the five-county district and provide liaison with individuals and groups in the district.

"I feel I am fortunate in being able to secure the services of a man of the caliber of Mr. Gardner," Watson said. "His grassroots knowledge and understanding of the 13th Senatorial District is unsurpassed. I feel Mr. Gardner's services will be of inestimable value to the District and to me."

After spending three decades as a retail grocer in Moody, Gardner retired in 1967. He and his associates purchased an interest in the First National Bank at McGregor. He has served as a director of the bank since that time.

Sam Janes Honored At Houston Banquet

Sam Janes of Hetley Stedman Motor Co., Cameron, Tex., was honored for an outstanding sales performance during 1968 at a banquet at the Marriott Motor Hotel on Saturday, March 29.

A. G. Walker, Houston district sales manager, said a select number of Ford dealership salesmen will be presented a 300-500 Club membership award for "excellent retail sales performance." The Ford 300-500 Club was founded in 1950 to recognize the performance of outstanding Ford salesmen throughout the country.

One-Act Play Nets RHS Second Place

At the District 22-A University Interscholastic one-act play contest held in Rosebud last week, Rogers High School received second place with Rosebud High receiving first place. Troy High School also entered the contest.

The Rogers play, "Columbine Madonna", was directed by Mrs. Patsy Dorner. Corene Green and Danny Henson were selected to the all-star cast by the critic judge. Other students in the cast were Margaret Green, Tommy Green, and Billy Richards.

CISD Among Leaders....

Five years after a district-wide evaluation of property, Cameron Independent School District now can find considerable pride that the job is already done.

A survey released by the Committee on Public School Education (COPSE) people in Austin shows the wide divergence between claimed and actual percentage valuation for school taxes.

The Committee, whose tax evaluators came from a firm in Dallas, says that a 5 percent spread between claimed valuation and actual valuation is allowable.

The CISD is 25 percent claimed valuation which is found to be 23 percent actual, or only 2 percentiles off the mark.

Numerous, if not hundreds of the 1200 plus independent districts in Texas claim a valuation which is 10 to 25 percent below actual valuation.

Milam County districts has a wide spread in claim vs. actual valuation, according to the COPSE survey.

Point is Cameron Independent School District, its residents and property owners have put their school tax dollars where their claim is. Though the percentage may be considered low, it is realistic.

If all the independent districts could say the same, there would be, first of all, fewer districts, because the small districts could not survive, and second, better schools throughout the state.

Once again, the Cameron area shows leadership that hails the new era of education and progress the COPSE people are instituting throughout Texas.

DDE And Those Who Knew Themselves Not.....

Possibly the greatest gift of Dwight David Eisenhower was the inability to hate.

That gift alone may have raised a promising military leader to the heights of World War II Supreme Allied Commander in Europe and 34th President.

President Nixon cited the love people held for "Ike" Eisenhower years after his retirement from public life. And the President in his eulogy cited the increasing regard for Eisenhower, not declining. As he was finally buried Wednesday in Abiliene, Kansas, he was loved.

How many modern leaders can say their respect grows beyond the days of their public works?

Dwight Eisenhower enjoyed the accolades of testimony for what he was, more than what he did.

And this incapacity to hate, beyond short-term reaction to immediate problems, is symbolic of the man, leader of the greatest invasion force in history and keeper of peace for eight years in the 1950's.

It takes the greatest capacity and the deepest humility not to hate, when hate is one of the commonest and most enduring qualities among men.

It says a great deal about men when they know goodwill after the bitterness of conflict, victory or defeat.

It says a great deal about Dwight David Eisenhower, whose precence was not only a wholesome, spiritual integrity, but a decisive, confident leadership. He knew himself better than to hate those who knew themselves not, and hated.

OLD PHILOSOPHER

Dear editar:

I found a newspaper wedged in the back door to keep it shut, I've been meaning to get around to fixing that latch and will as soon as the Paris peace talks are over, and pulled it out and propped the door shut with the brick I've been using for years and got out of ear shot and immediately read an article that gave me an idea.

According to it, life in many big cities has become dangerous. It's awful. People can't walk the streets at night parks are useless even during the day unless there's a cop every 15 or 20 feet, houses are being broken into regularly.

in fact, it's got so bad that city people are going to great extremes to stay safe in their homes.

Some people are putting three locks to the door, double barring the windows, keeping floodlights on all night, buying extra watch dogs, installing electric-eye beams to set off alarms when a prowler shows up, carrying mace in their purses, etc.

But the gadget that set me to thinking is an inflatable dummy, for use when you're driving alone in your car.

You blow it up, it looks just like a big, husky man, and you put it on the front seat next to you. This is supposed to scare off a highwayman or thug hunting for some one driving alone.

I wish you'd find out where I can buy one, I know the stores in Cameron don't stock them, there's no market for them in a civilized town like this, but I'd like to get hold of one if the price isn't too high.

What I want it for is to blow up and set on my tractor seat, its hands on the steering wheel, with the tractor parked on the far side of the field, away from the house.

Then I'm going to get in a comfortable position some place and read. A glance from the house will lead one to believe I'm on my tractor and hard at work, and other people can attend to their own business.

Yours faithfully,
J. A.

LETTERS—

Dear Mr. Luecke:

Thank you for the sales meeting which Mrs. Lewis and I attended.

This type of meeting is a most constructive method of sales clinic training. I am sure that every one who attended took something home with them.

The meal was excellent, and The Texan should be commended for it.

Your next meeting of this kind will have to be limited when the "word of mouth" story gets around.

Thank you again for having us.

Sincerely yours,

THE FAMILY LAWYER

LENDING YOUR CAR

It is common courtesy, when you lend your car to a friend, to fill it up first with gas. But what about checking the brakes or inspecting the tires? If the car is defective and there is an accident, are you legally liable for the consequences?

You may be indeed. Take this case:

A man allowed the woman next door—an inexperienced driver — to borrow his car. Although he knew it had a "grabby" clutch, he didn't tell her so. During the ride she lost control of the car, crashed into a tree, and suffered painful injuries.

She later sued him for damages, and the court decided he must pay for his negligence. The judge said that, under the circumstances, this was the kind of accident he could reasonably have foreseen and prevented.

What if there is an injury not to the borrower but to some third party whom you don't even know? Even then, you might incur liability.

Thus, a man who loaned a car with faulty brakes, without giving fair warning to the borrower, was held responsible for the resulting death of a schoolboy. The fatal accident occurred when, at a crucial moment, the brakes gave way.

That does not mean you have to make a thorough examination of your car before lending it, to discover defects you would not ordinarily know about. Accordingly, a car owner was held not to blame when the steering gear—seemingly all right until then—suddenly jammed while a friend was using the car.

Nor must you warn a borrower about things he can and should see for himself. A man who loaned a car with a dirty windshield was held not responsible for a later collision. The court said he had a right to assume that the borrower would have enough sense to clean the windshield on his own.

All the law demands is that you show, along with your generosity in lending the car, a decent concern for the safety of other people. As one court said:

"When a person lends, he ought to confer a benefit and not do a mischief."

Speedy Senate Tax Bill Ask More DPS Funds

By Vern Sanford

AUSTIN

Showdown time is near in the Legislature. That's when the time comes for crucial issues of spending and taxation.

Moving at a billion-dollars-a-minute clip, the Senate whipped through a record $5.8 billion 1970-71 appropriations bill which would require a minimum $63.3 million in new taxes.

Of this $5.8 billion budget, $69.7 million is recommended for support of the State Department of Public Safety, an increase of $10.2 million over the current level of spending by that agency. Difference would pay for the hiring of 150 more highway patrolmen, 50 more narcotics agents and 10 additional intelligence agents, as well as $864,638 for an addition to the Homer Garrison Jr. Police Training Academy in Austin.

Despite all its heft, the Senate bill contained no funds for the anticipated $220 million teacher-pay-raise, the contemplated $30 million lift in the welfare ceiling, $16.5 million for two new medical schools, $7.5 million for a new dental school or $6 million for planning new colleges.

Include these high-priority-items and you are looking at a tax bill a lot closer to $345 million than $63.3 milion.

However, House Speaker Gus Mutscher has called for an appropriations bill which will require no new revenue. It would include money for new medical schools, dental school and college planning.

Major difference in the bills is in the area of higher education, where the Senate would raise general fund appropriations of 22 senior colleges and universities $106.5 million, public junior colleges $19.3 million.

First hearings on major tax bills are getting under way. Hearing on Gov. Preston Smith's supplemental revenue recommendation, to place a one half of one percent levy on chemical producers and raise the cigarette rate to 15 cents a pack, will be set for mid-April.

House may very well pass its version of the budget next week. It would permit a $240 million increase in general revenue spending without additional taxes. Diffat Senate spending measures must fat Snate spending measures must be ironed out in confernce committee during the next two months.

Tax battle, which must start in the House, will see-saw back and forth from House-to-Senate-and-vice-versa. Senators have some revenue ideas of their own.

LEGISLATURE MOVES ON

Senators stole the spotlight from the House by churning out 53 bills to 38 for their colleagues across the rotunda.

What's more, included on the Senate's things-done list were such monumental accomplishments as passage of constitutional amendments to legalize local option sale of liquor-by-the-drink and to raise the water revenue bond ceiling to $3.5 billion to finance the statewide water plan. Senators further approved their $5.8 billion version of the budget and voted for a constitutional amendment to remove the welfare ceiling.

Voting date on the water bond and welfare amendment was set at August 5. Hopefully, several other constitutional amendments, including volunteer fireman's benefits, college student loans, and an increase in the interest rate on constitutional bond funds will be submitted on the same date. To get on the August ballot, measures must be finally passed by the Legislature no later than April 16, due to the 90-day advertising requirements.

House passed bills to establish a University of Texas medical school branch in Houston and authorize state payment of moving expenses to property owners displaced by highway right-of-way buying.

PRIVATE COLLEGE SUBSIDY

Texas college students who attend private schools will have some relief from the cost of tuition if Rep. Lynn Nabers of Brownwood has his way. He has submitted three bills that would provide assistance to students of private colleges. Each of the three are different plans. HB 451 would equalize the tuition paid by a resident at state and non-state schools. HB 1153 would establish a Tuition Scholarship Program for state students attending private schools, and HB 1154 would authorize the Coordinating Board, Texas College and University System, to pay a private school a given amount of money for every Texas graduate.

TRAFFIC TICKET SCORED

State Rep. Maurice Angly of Austin has touched some state lawmakers on a very sore spot.

He wants them to renounce their immunity from traffic and parking citations in the capital city. Angly said, as an Austin lawmaker, he has participated in the practice of "taking care of" his colleagues' tickets and is ashamed of it. He introduced a resolution asking legislators to go on record as "expressing a desire to be treated without special favor or undue accord."

U.I.L. MAY GO

In the Legislature is a bill to abolish the University Interscholastic League, which administers all inter-high-school athletic and literary competion. Proposal by Rep. Burke Musgrove of Breckenridge would put all UIL functions under the State Board of Education.

Musgrove says his bill is in response to complaints about UIL's strict rules, such as those prohibiting gifts to athletes and requiring a year's layoff for athletes after a change of schools.

Another bill, by Rep. Bill Swanson of Houston, would invalidate the UIL rule requiring that year's lay-off. Both measures are awaiting hearing in the House Public Education Committee.

COURTS SPEAK

Third Court of Civil Appeals tossed out Fort Worth Sundaco Inc.'s suit to determine the legality of its scheme for evading the state's Sunday closing law. Court said operations, which include "buying stock" of certain stores every Saturday night, have not been challenged yet.

Meanwhile, State Supreme Court heard arguments on the constitutionality of a 1961 closing law. San Antonio discount houses claim the law is vague and indefinite and therefore invalid. Bexar County District Court held the law unconstitutional. State appealed.

High Court declared the state's new polygraph-examiners licensing law is unconstitutional. This due to a defective title which fails to size up the full extent of coverage.

Court of Criminal Appeals upheld the death penalty given a Dallas County man for rape of a 74-year-old woman.

SALES TAX REBATE

Nearly 290 Texas cities last week received a whopping $28.2 million in allocations from the state comptroller as their share of the one percent local option municipal tax for the last quarter of 1968.

Totals ranged from $122 for little Josephine to $6.4 million for big Houston. Comptroller reported totals exceeded expectations in nearly all cases.

TAX FACTS UNCORKED

Committee on Public School Education has released its study on school district tax inequalities which admittedly may provoke legal action.

Survey found "inequities are the rule in this state rather than the exception," that 64 percent of state's school districts have an average ratio of assessed value to market value of 20 percent or less. Ratios range from 14 percent on undeveloped land to 41 percent on banks and private homes.

COPSE Chairman Leon Jaworski of Houston said the Committee was reluctant to publish figures since they might lead to embarrassment for many local districts.

Legislators sponsoring COPSE recommendations as bills in House and Senate said that, whether legal action results or not, people "have both a right to know the facts and an obligation to take appropriate action."

COPSE bills, aired before the House Public Education Committee last week, came under heavy shelling from rural school spokesmen and property owners. Particularly repugnant to rural opponents were proposals to slash the number of school districts from 1,218 to 353 and to equalize taxes on strict market value basis.

APPOINTMENTS, CONFIRMED

Senate confirmed key appointments of Joe W. Burkett Jr. of Kerrville and Tom Gordon of Abilene to Texas Liquor Control Board and Leslie R. Neal of San Antonio to the Water Rights Commission.

Appointments of Dorsey Hardeman of San Angelo and William B. Blakemore II of Midland were passed over.

Bartlett Study Shows CISD Tax Ratio 'Equal'

Cameron's school district approaches "equalization and uniformity," according to a study released Wednesday by the Governor's Committee on Public School Education.

The state-wide study was made for the Committee by Charles Bartlett, and the report includes estimates of the ratios of assessed value to market value for seven broad classes of property compared to the ratios claimed by the various districts.

"Where the difference between the claimed true ratios is no greater than five percent a district may be said to approach equalization and uniformity," Bartlett said.

Bartlett's study shows that Cameron Independent School District claims to assess property at 25 percent of market value and has an actual assessment of 23 percent, which is within Bartlett's five percent margin.

A breakdown of categories for CISD shows undeveloped land is assessed at an average of $28 per acre or 20 percent of its actual value; commercial and industrial, 27 percent; business personal property, 21 percent; utilities, 28 percent; banks, 27 percent; residential and other, 26 percent; and taxes private automobiles.

Assessment ratios for other school districts in Milam County according to the report, are:

Maysfield CSD claims an assessment ratio of 20 percent, with actual ratio of 8 percent; undeveloped land assessed at 7 percent; commercial and industrial 4 percent; business personal property 14 percent; utilities 14 percent; residential and other 12 percent.

Buckholts RHSD: claims a ratio of 20 percent while the Bartlett study shows actual assessment is 10, with undeveloped land, 7 percent commercial and industrial 5 percent; business personal property 12 percent; utilities 20 percent; banks 16; residential and other, 12.

Gause ISD: 20 percent assessment claimed, 6 percent actual; undeveloped land, 4; commercial and industrial 11; business personal property 5; utilities 16; residential and other 8.

Milano ISD: 20 percent assessment claimed, 10 percent actual; undeveloped land 7; commercial and industrial 19; business personal property 0; utilities 26; residential and other 18.

Rockdale ISD: 25 percent assessment claimed, 13 percent actual; undeveloped land 8, commercial and industrial 13, business personal property 10, utilities 21, banks 27, residential and other 15.

Thorndale ISD: 30 percent assessment claimed, 21 percent actual; undeveloped land 17, commercial and industrial 28, business personal property 19, utilities 23, banks 29, residential and other 28.

All seven districts were listed as taxing private automobiles.

The Bartlett report was released at the request of Sen. A. R. Schwartz and Rep. DeWitt Hale, co-sponsors of legislation designed to implement the Committee's proposed long-range plan.

"We realize that publication of assessment ratios showing, for example, that some districts assess banks at a lower rate than residences--or vice versa--is not necessarily germane to the measurement of a local district's total taxable values," the legislators stated.

"We realize, also, that the publication of such data may expose some districts to charges of discrimination and perhaps to legal action. However, we believe the citizens of this State have a right to know the facts about the taxes they are required to pay in support of public education. And we thing the members of the Texas Legislature have both a right to know the facts and an obligation to take appropriate action," Sen. Schwartz and Rep. Hale declared.

House Education Committee Starts Hearings On Controversial Bill

A "marathon" hearing, starting at 1:30 p.m. Tuesday and lasting until 2 a.m. Wednesday morning, ushered in the "most controversial bill to appear in the House in over a decade," according to Rep. Dan Kubiak.

This was HB 300, The Governor's Committee Report on Public School Education. Over 100 people testified before the Public Education Committee, with attendance in the House Chamber up to 1500 at one time.

The bill has been referred to subcommittee, and Rep. Kubiak was named to serve on the subcommittee, along with George Hinson of Mineola, chairman; Joe Golman of Dallas, Raul Muniz of El Paso, Jack Hawkins of Groesbeck, Tom Christian of Claude and Steve Burgess of Nacogdoches.

Consolidation of school districts led opposition to the bill, followed by tax recommendations.

Opponents of a recommendation to base local share of public school costs on market value of property claimed that ranchers and farmers would be ruined or put out of business by taxation. "Market value of farm and ranch land may be high, they maintained, but productivity and income are low," Kubiak reported in his weekly newsletter.

Rep. Kubiak said he found 78 errors in personally studying the Bartlett report which made tax recommendations to the committee. "There is a problem here and I am sure that all mistakes are certainly not intentional but nonetheless they are in the report and we have a tremendous task before us," he added.

"From the hearing I found that the cities are not sharing their part of the cost of education as a very large percentage of property has never been on the rolls for taxation purposes," Kubiak continued. "Expensive buildings that make the skyline of our seven major cities are nowhere on the tax rolls."

"I am honored that I was placed on the subcommittee and I welcome the challenge," the representative said, "but there is a tremendous amount of work and responsibility involved as you know."

Last Monday marked the halfway point of the 61st Legislature's 140-day session.

Judge Rules Jury Answers Proper'; Finding Upheld

District Judge W. C. Wallace Tuesday ruled a Milam petit jury properly answered Issue No. 13, upholding the jury's awarding $79,463.75 in damages to plaintiff W. B. Ham, of Temple.

The 12-man panel March 15 found for the plaintiff after two days of deliberation in Ham's damage suit against Santa Fe Railroad. Ham alleged permanent injuries suffered in a train accident, August, 1967, seeking about $145,000 in damages.

Defense attorneys contended the jury in Special Issue No. 13 contradicted its answer to an earlier issue among 17 special instructions to the jury.

It was a retrial, with new jury, of the case which ended in a "hung" jury two months before.

Santa Fe attorneys may appeal the jury verdict. It is one of the largest damage findings in recent Milam history.

Attorneys for the plaintiff are Shirley Helm, of Houston, and Robert Ellett, of Cameron. Attorneys for Santa Fe Railroad are Chilton O'Brien, of Beaumont, and John B. Henderson, Jr., of Cameron.

Hornung, a native of Live Oak County, moved to Cameron in 1946. He served in the Air Force during World War II. He is married and the father of two school age boys, and is Cubmaster for Cub Scout Pack 213 in Cameron.

Rev. Wirt Skinner, pastor of First Presbyterian Church in Cameron since 1967, is a native of Decatur, Ga. He is president of the Cameron Area Ministerial Alliance and a member of the Cameron Rotary Club. He and his wife are active in civic organizations.

Rev. Skinner's statement follows:

"In filing my candidacy for the Cameron Independent School Board, I have done something I thought about doing at this time last year, but did not because I felt at the time that I did not know Cameron well enough. Now I believe that I have been a part of this town long enough to make some real contribution to it.

"This fact, together with the experience my wife and I had with the Yoe High School bands last Fall, makes me deeply interested in the education, progress and welfare of the youth in our communities. And it seems to me that in this way I as a citizen of the kingdoms of this world as well as the Kingdom of Heaven, can make the sort of contribution that one who is a Christian as well as a responsible citizen can make."

4-H ACTIVITIES

By Fred Schuetze

County Agent's Notes . . .

Time To Spray Milam Fruit Trees

By B. D. Moore

Fruit trees should be sprayed when 75 percent of the petals have fallen from the blooms. Plum and apricot trees are to be treated in the same manner. Timing is important. Fruit trees should be sprayed every 10 to 12 days for a period of 5 to 6 applications.

Materials to use: If you are afraid, Sevin is the safest to use. Dieldrin, Guthion, Toxaphene or DDT may be used with good insect control. Any of these insecticides may be used at the rate of two tablespoons per gallon of water.

It is very important to follow the recommendations when using chemicals in farm sprayers. In order to apply the proper amount per acre, one must know how many gallons of water the sprayer is putting out per acre. One way to determine the sprayer output is measure off a distance of 100 feet. Next, determine how many seconds it takes the tractor to travel the measured 100 feet. Be sure to drive the tractor in the gear you intend to operate the spray rig with the pressure set at 30 pounds.

With the sprayer standing still, engage the power take-off, set the tractor throttle at spraying position, with the sprayer pressure at 30 pounds, catch the output from one nozzle for the number of seconds it took the tractor to travel the above 100 feet. If the nozzles are spaced 20 inches apart on the boom, multiply the average nozzle output by two. This equals the gallons of spray that will be delivered per acre.

If any spray operator needs help in calibrating their sprayer, one of the county agents will be glad to assist.

Weed control in pastures - try something that will not drift. Spray Banvel-D at the rate of one gallon in enough water to cover 30 acres of pasture. In areas where no susceptible crops are near, 2-4-D (amine) at one pound rate per acre is the recommended chemical to use for weed control. (CAUTION - 2-4-D will drift).

COMMUNITY PROGRAM

A total of 303 communities are enrolled in the 1968-69 statewide Community Improvement Program. The selection of the top communities in Texas will get underway with the naming of county winners; then district winners and finally the state winners will be selected in May.

TEXAS CROP ACREAGES

Texas crop acreage planted and intended to be planted for harvest during 1969 is expected to be approximately the same as last year. Increases in cotton, corn, oats, rye, peanuts, Irish and sweet potatoes and sugar beets more than offset decreases in wheat, barley, rice, sorghum and hay acreages.

Town Country

4-H, Food Fair Winners

Swing into spring with new food ideas from the kitchen. This is what 4-H girls from all over Milam County were doing the past few weeks in preparation for the Milam County 4-H Foods Show. Twelve 4-H'ers ranging from age 9 thru 17 participated in this event held March 15 at Simon George Hall in Cameron.

The girls were divided into two divisions: Junior, age 9-13, and Senior, age 14-19. In each division there were four classes they could enter: meat, milk and milk products, vegetable and fruit and bread and cereal.

Each girl selected a recipe to prepare, decided upon individual place settings and a centerpiece for a card table, made out a day's menu, filled in a record form, and learned all they could about the nutritional value, the cost, and other information about their dish. This is quite an accomplishment for a nine year old.

They were judged on their exhibit, their knowledge, the food, recipe, menu, and recordbook. The expense of their table appointment was not important, the important thing was seeing what the girls could do with what they have and what they had learned.

The results of the food show are: Junior Division: Milk Group: 1st-Cassandra Marek, Buckholts 4-H Club with Wikiwicki Dessert 2nd-Priscilla Lamere, Minerva 4-H with Strawberry Float Fruit and Vegetable: 1st-Donna Jo Crenan, Burlington 4-H with 5-Cup Salad 2nd-Debra Fleming, Countywide 4-H with Jello Fruit Ring 3rd-Elain Trdy, St. Anthony with Carrot Salad and 4th-Judy Neely, St. Anthony 4-H with Tossed Salad. Meat: 1st-Rosemary Ehler, St. Anthony 4-H with Chili 2nd-Anita Neeley, St. Anthony with Italian Meat Balls.

SENIOR DIVISION: Bread and Cereal: 1st-Quen Solomon, Minerva 4-H with Carrot Cake 2nd-Jane Helpert, Burlington 4-H with Banana Bread. Meat: Paula Fleming, Countywide 4-H, with Fried Chicken-1st.

Paula Felming and Quen Solomon will represent Milam County in the District 4-H Food Show to be held April 19 in Stephenville. Paula is the daughter of Mr. and Mrs. Wayne Fleming of Cameron. Quen is the daughter of Mrs. 'D.

A recipe pamphlet is being made of all prize winning recipes. If you would like a copy free of charge,' just write, call or drop by our office.

The judges for this event were: Mrs. Wavy Charles of Tracy, Mrs. Preston Laws of Austin, and Mrs. Clyde Holliman of Rockdale.

'Worst Outbreak' Of Screwworms

The worst outbreaks of screwworms in the seven-year history of the Southwest Screwworm eradication program areexpected in 1969.

The prediction comes from veterinarians in USDA's Agricultural Research Service. They hope the increased production of sterile screwworm flies may blunt a massive spring buildup. Seventeen months of ideal weather for the pests are blamed for the resurgence.

Many ranchers have relaxed preventive measures, adding to the vets' predictions.

Ranchers are urged to carry on an intensive preventive program in the months ahead. Herds should be inspected regularly, suspected larvae should be collected for identification and all wounds treated with approved smears.

Last year several cases of confirmed screwworms were reported in Milam County.

H. E. KORANEK

USS CAMBRIA

Yeoman First Class Herman E. Koranek, USN, son of Mr. and Mrs. Jimmy Koranek of Route 1, Cameron, is participating in amphibious landing exercises in the Mediterranean aboard the transport ship USS Cambria.

His ship is one of six in the Sixth Fleet Amphibious Task Force deployed from Norfold, Va. for the five-month exercise.

Priest To Serve Episcopal Church On First Sundays

All Saints Episcopal Church has announced that Dr. Arnold W. Hearn will serve the Cameron church and St. Thomas Episcopal Church at Rockdale every first Sunday.

Holy Communion and the sermon will be 9 a.m. at Cameron and at 11 a.m. at Rockdale. On other Sundays lay readers of the church will have morning prayer and the sermon at 9 a.m. in Cameron.

Dr. Hearn is professor of Christian Ethics at the Episcopal Theological Seminary of the Southwest in Austin. He was a Methodist minister until 1962, and was ordained priest in 1965.

He was born in Soochow, China, son of Methodist Episcopal missionaries, and grew up in Columbia, Missluri. Dr. Hearn has a BA degree from the University of Missouri, a BD from Union Theological Seminary in New York, and a Ph.D from Columbia University.

He served as instructor at Princeton University, Union Theological Seminary, and visiting lecturer at Bangor Theological Seminary, Bangor, Maine. He was editor of Christianity and Society and Anglican Theological Review. Numerous religious publications have printed Dr. Hearn's articles, editorials and book reviews.

The former vicar of the Episcopal churches in Cameron and Rockdale, Rev. David Erskine, moved to Sulphur Springs at the beginning of March.

BCGPA Adopts Cotton Program

The Blackland Cotton and Grain Producers Association at its first annual meeting held recently in Hillsboro adopted a three-point program for cotton. New officers were elected for the organization March 21.

John Nigliazzo was named president, Dan Pustejovsky, vice president; Calvin Reuter, secretary; and Gervais Dobbs, treasurer.

The cotton program includes: a one-price system; a loan level related to the open market; a production adjustment payment until such time as cotton can be competitive on its own in the open market.

A 23 percent reduction in the support price for 1969 cottonseed was noted in BCGPA's newsletter. This reduction of about $4 per bale "can mean that farmers will have to pay part of their ginning cost out of lint because the seed won't pay ginning charges," the newsletter stated.

The organization also went on record: favoring continuance of the 16 million acre national cotton allotment; opposing any limitation of payments to producers; favoring the $1 per bale, CPI Research and Promotion program; requesting CPI to provide funds for cotton root rot research;

Opposing transfer of cotton allotment acres from one product area to another without giving producers in the area access to such acres; favoring history trend in determining feed grain bases from acres which were planted to cotton under the old B cotton program; favoring promotion of programs which will preserve the family-type farm.

It's simple. Get out of that common, ordinary car, and into Oldsmobile's Cutlass S.

Right away, you're traveling in a class where the styling trends are set.

It's there in economy, too. In a Rocket 350 V-8 that performs great—on regular gas. And in Olds ride, handling and performance lesser cars just can't duplicate.

What it adds up to is extra value that far exceeds its low price.

So, if you're looking for the most exciting buy in town this spring, this has got to be the car. Cutlass S. Try one on at your Olds dealer's today.

We can make you look like a big spender for just about what you're spending now.

Completely sold on brownies, boys and electric ranges!

And they'll continue to be sold on electric ranges long, long after brownies have become fudge layer cakes and boys have become husbands. Studies show a majority of girls who learn to cook on an electric range in home economics classes hope they will always have an electric range to cook on! Among the reasons they give for electricity's popularity are: "... electricity so clean. The whole kitchen stays cleaner." "The heat is more accurately controlled on an electric range." "An electric range is modern! It gives you all the newest cooking conveniences, like the self-cleaning oven."

A new electric range is so efficiently designed it cooks the food, not the air around it — and keeps your kitchen cooler. With automatic controls, it'll even cook your oven meals while you're away from home. Enjoy the easy, modern way to cook. Join the others who say — "it's an electric range for me — from now on!"

WORSHIP IN CHURCH
and get a spiritual lift for the whole week

You In The Church
The Church In You
— form a combination for good. Every man, woman and child needs the influence of the church. So, come let us go into the house of the Lord. Let us support her program of service to humanity, be a faithful worker, a daily bible reader and attend services regularly.

—and Christ Arose. Death gave way to life. The transition took place. In deepest reality, there is no death. The earth sleeps a few months and we call it winter. Now it awakes to spring and new beauty and vigor and fruit for harvest. As God's sun called the dead earth to put on a new dress, so He calls us to put on new graces of the spirit: love, joy, faith and self-control. Christ arose! God's world is awake! We are alert to new beauty, goodness and truth. It is Easter.

Mrs. Edwin Gandy

The Woman's Missionary Union of the First Baptist Church met Tuesday for the teaching of a mission book, "In Aloha Land". The book was taught by Mrs. Frank Garey and Mrs. Floyd Stark.

The First Baptist Church will hold a three-day revival April 4-6, each evening beginning at 7:30 p.m. Rev. Webb of the Battetown Baptist Church will bring the message on Friday and Saturday night.

There was a wonderful singing held at the South Elm Baptist Church Sunday afternoon.

Raymond Stone and Norma Barkemeyer were married Saturday evening in the home of Mr. and Mrs. Vernon Dungan by Rev. C. A. Kent.

Guests in the home of Mr. and Mrs. C. R. Criswell last week were her sister, Mrs. Minnie Miles of Waco and Hubert and Ellis Blankenship from California.

Mr. and Mrs. Anton Gaas and sons visited his mother, Mrs. Gaas of Caldwell.

Guests in the home of Mr. and Mrs. L. A. Svetlik Sr. on Sunday were their children, Mr. and Mrs. U. D. Admas, Gary and David from Austin and L. A. Svetlik Jr. of Fort Worth.

Howard Peeler of Bryan was home this weekend to visit his parents, Mr. and Mrs. N. E. Peeler.

Guests in the home of Mr. and Mrs. W. H. Gilbert over the weekend were Mr. and Mrs. Ivy Gilbert and family of Cameron and Mr. and Mrs. Johnny Persky from Fort Worth.

Mr. and Mrs. Ladis Marek, Lue and Billy spent the weekend with their son and family, Mr. and Mrs. Ladis Joe Marek and Roert of Waco.

Guests in the home of Mr. and Mrs. R. L. Lock over the weekend were their son and family, Mr. and Mrs. Leslie Lock and children from Houston.

Mrs. John Bushy of San Antonio visited her mother, Mrs. Estelle Horstmann and a sister and brother in-law, Mr. and Mrs. Leon Brady over the weekend.

Guests in the home of Mr. and Mrs. Steve Burtis over the weekend were his sister and brother-in-law, Mr. and Mrs. Bill Schweihs of San Antonio.

Mr. and Mrs. Fred Cochran of Cameron visited in the Orba Arnold home on Sunday afternoon.

Guests in the home of Mr. and Mrs. Frank Garey last week were her mother, Mrs. Calude Hodges from Santa Anna and a sister and brother-in-law, Mr. and Mrs. Richard Jennings from Rilato, California. On Friday evening they all visited in the home of her son and family, Mr. and Mrs. Tommy Lane and Kimberly of Temple.

Mr. and Mrs. Hallie Loftin and Mr. and Mrs. Edwin Gandy visited on Wednesday evening in the home of their parents, Mr. and Mrs. N. W. Gandy of Temple, to celebrate Mrs. Gandy's birthday.

Mrs. Marie Kelly and children of Fort Worth visited with her mother, Mrs. Jim Petruy and a sister and family, Mr. and Mrs. Nealon Peeler on Saturday.

Jon Zelisko Listed On UT Honor Roll

Jon C. Zelisko was listed on the University of Texas College of Pharmacy honor roll for the fall semester, according to Dean J. B. Sprowls.

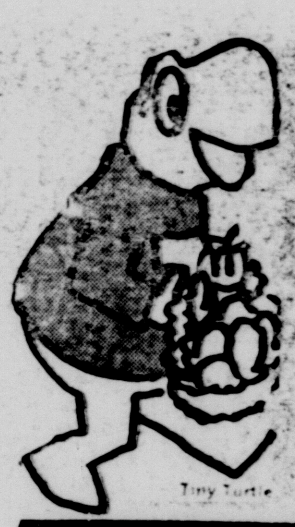

Jon is the son of Mr. and Mrs. Arnett Zelisko of Cameron.

Your Serviceman

RAY ADAMS JR.
USS ORISKANY

Marine Lance Corporal Ray Adams Jr., son of Mrs. Rosie Perry of Route 2, Thorndale, participated in Operation Bell Jangle while serving aboard the attack aircraft carrier Oriskany.

The third major Naval exercise off the coast of California this year, Bell Jangle is a First Fleet operation designed to emphasize the tactics needed in both Southeast Asian operations and Western Pacific deployments.
